Mark,

Please check this out and add what you can.

Thank you,

Andy

Hi Andy,

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

In her questions below, the reporter refers to CBI, which stands for Confidential Business Information. I'm assuming she'd like to know if you and Mark had access to DuPont CBI in conducting this study. Let me know if you have questions. Thanks Andy,

-Emily

“Here are some of the questions I hope to ask Mark Strynar and Andrew Lindstrom:

I'm interested in how they did the research for this paper, so I'd like to ask:

- Where did they find these chemicals?
- How they knew to look for the chemicals where they did?
- How exactly did they get the water samples? (i.e. a description of their process)
- Once they got samples, how did they figure out which chemicals were in the water?

Also, I'm interested in what they see as the significance of this paper, so:

- How can this research can be useful (i.e. how can scientists benefit from this information)?
 - What research questions does this paper raise?
 - What is known about the chemicals you found?
 - Do they bear notable similarities to other chemicals?
 - Are there any presentations I might see, powerpoints or something, else that summarize their process or findings?
- Do they have CBI clearance? Why or why not?”
